

FAMILY VISITATION & RESOURCE HOME

Kid's In Need McHenry (KIN), in collaboration with ROAN Solutions, is excited to announce the launch of the Family Visitation & Resource Home in Crystal Lake, IL. This space will offer a safe, private, and supportive setting where parents can visit with their children. In addition to supervised visits, the facility will offer an array of other services including monitored exchanges for area families; parent workshops; and therapy. The Family Visitation & Resource Home opened in March 2021. KIN believes the Family Visitation & Resource Home will improve parenting time for families separated due to DCFS court involvement and increase positive outcomes. We look forward to providing this important resource to our community.
